WHO WE ARE

At Art-Tec, we don't just build structures we craft experiences. With over 15 years of proven expertise in construction, interior finishing, and decoration, we have become a trusted name in shaping spaces that reflect functionality, elegance, and innovation. Founded on a passion for design and a commitment to excellence, Art-Tec has delivered numerous successful projects for both local and international clients, collaborating with major names across diverse sectors. Our work spans from robust structural execution to the finest decorative details all carried out with precision, creativity, and attention to client vision. Our integrated approach, combining engineering excellence with artistic insight, allows us to transform raw spaces into inspiring environments. Whether it's a corporate office, luxury residence, retail space, or hospitality venue, we bring deep industry knowledge, cutting-edge techniques, and a dedicated team to every project.

ART TEC
INTERIORS

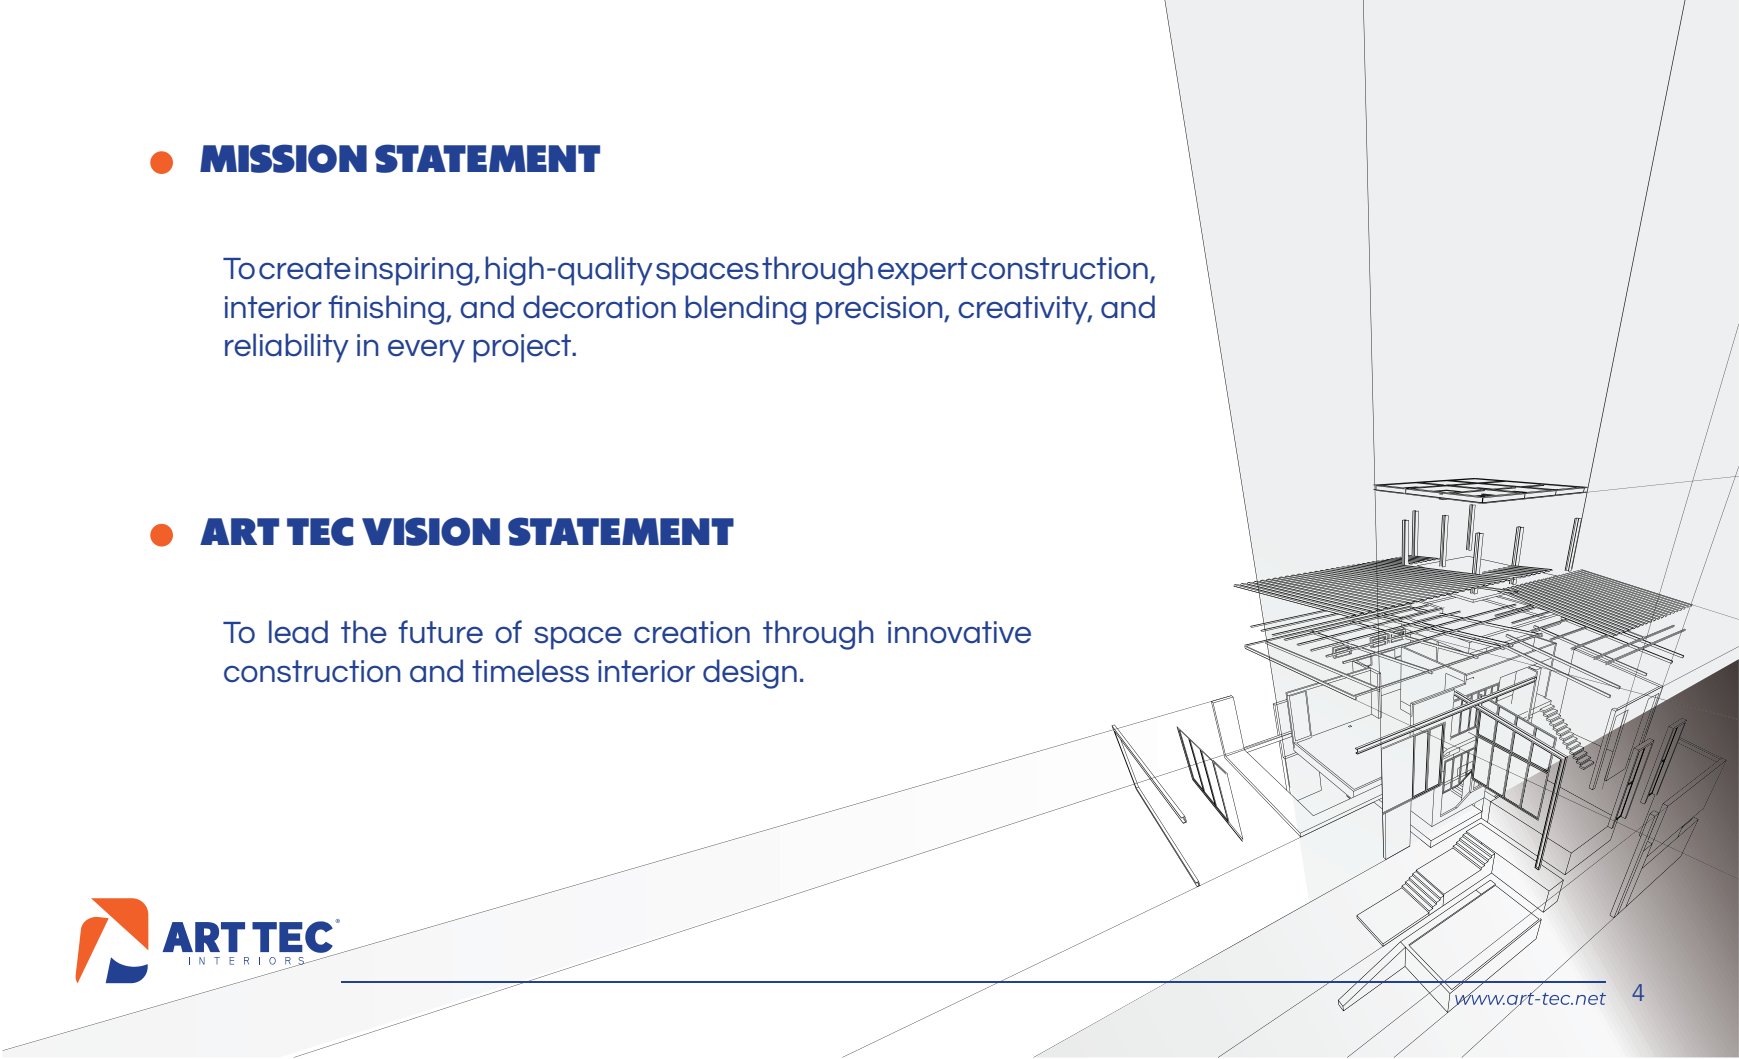

MISSION STATEMENT

To create inspiring, high-quality spaces through expert construction, interior finishing, and decoration blending precision, creativity, and reliability in every project.

ART TEC VISION STATEMENT

To lead the future of space creation through innovative construction and timeless interior design.

OUR CORE VALUES

1- Quality Excellence
We are committed to delivering the highest standards in construction and design down to the finest detail.

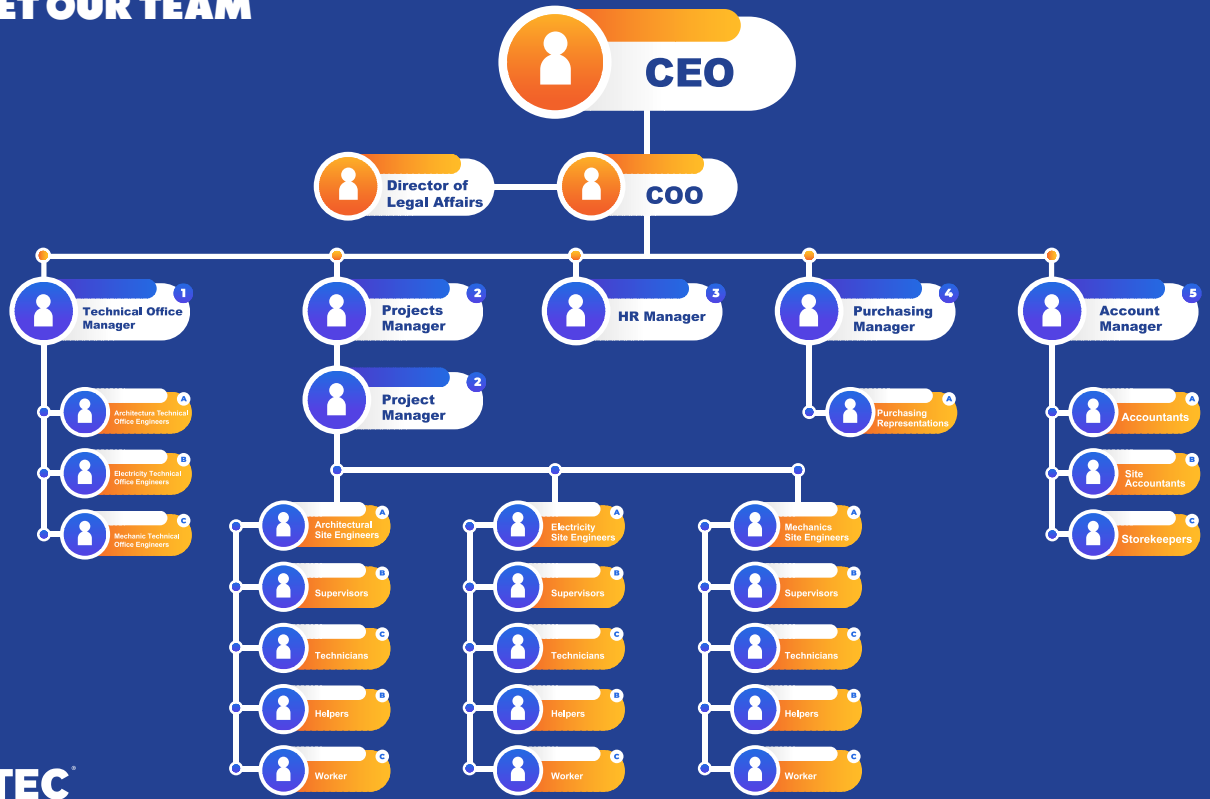

2- Creativity & Innovation
We embrace fresh ideas and creative thinking to craft unique, functional, and inspiring spaces.

3- Integrity & Transparency
We build trust through honest communication, ethical practices, and dependable service.

4- Client-Centric Approach
We listen, understand, and deliver solutions that align with our clients' needs, visions, and lifestyles.

5- Precision & Professionalism
We execute every project with meticulous care, technical expertise, and a passion for perfection.

Story

ARTTEC Company provides all types of Fire Protection and Fire Detection Systems, as well as state of the art and integrated Solutions to a wide range of market sectors such as Oil & Gas, Commercial, Telecommunication, Industrial and Power & Water.

Our portfolio of solutions include:

- All Types of Fire Extinguishers:
- CO2, Dry Chemical Powder, Foam, Water, Wet
- Chemical and Halotron
- Dry and Wet Standpipe Systems
- Fire Hydrants
- Sprinkler System
- Deluge System
- Water Mist System
- FM 200 Suppression System
- Foam System
- Carbon Dioxide System
- Gas Detection System
- Wet Chemical Suppression System
- Fire Alarm System
- Fire Fighting Pumps
- Industrial Safety
- Emergency Lighting System

We undertake the following services which are combined as a package deal:

- Engineering work and submittal preparation
- Installation of the system we supply
- Testing and commissioning of the systems we install

The diverse range of solutions and services in our portfolio enable us to keep up with the ever-changing demands of the various markets we serve

FIRE EXTINGUISHERS

- Carbon dioxide extinguishers (portable & mobile type)
- Dry chemical powder extinguishers (portable & mobile type)
- Foam extinguishers (AFFF) (portable & mobile type)
- Water extinguishers (portable & mobile type)
- Halotron fire extinguishers (portable & mobile type)

CONVENTIONAL FIRE ALARM & DETECTION SYSTEMS

With our fully trained and experienced workforce, we have the capabilities to fulfill the installation needs of our region for all sizes of fire alarm systems. Arttec company provides professional fire alarm and detection services.

Our fire alarm and detection professionals would be pleased to provide a complete certification and testing program for any of your facilities.

With a focus that is mainly customer based, supplying inspections, monitoring, and service, we also pro-vide complete fire alarm systems installation while working with exceptional brand names within the industry.

ART TEC INTERIORS

SERVICES & PRODUCT LINES

Our Services and Product Lines Include:

- Fire alarm systems inspection
- Fire alarm systems service
- Fire alarm systems installation
- Monitoring
- Wireless monitoring
- Alarm activation
- Fire pump signals
- Sprinkler Systems
- Suppression and special hazard systems
- Suppression systems discharge
- Tamper, supervisory trouble
- Other alarm options

Art Tec Company provides free, no obligation quotes for general contractors, facility managers, architects, project managers, and other companies and institutions. Within 48 hours of a request for quote submission, a dedicated team member will reach out to discuss your project. We will gather all the information we need to generate pricing and can schedule site visits if needed.

ADDRESSABLE FIRE ALARM SYSTEM

Addressable analogue 1 to 2, 1 to 4, 1 to 6, loop control panels. 200 devices each loop with built-in battery charge and battery backup power supply.

An addressable call point with a response time less than 1 second versions available include:

- Resettable or break glass
- Lift up covers
- Key switch
- IP55 rated – when fitted with cover and surface box

ART TEC INTERIORS

FIRE SPRINKLER SYSTEMS

Automatic sprinkler protection has been widely used in a variety of locations. Every Sprinkler installation is tailormade to suit various factors such as features of building construction, dimensions of the compartment, fire load of the occupancy, the possible type of fire etc. Designing the sprinkler installation, therefore calls for a thorough understanding of these factors. An installation which has not been properly designed cannot be expected to function in the desired manner.

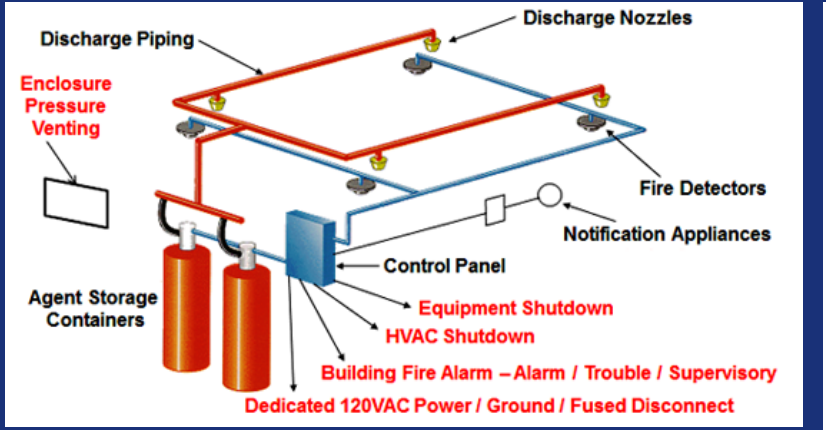

- **FIRE HOSE, REEL, CABINETS & ACCESSORIES**

ART TEC INTERIORS

FM 200 SUPPRESSION SYSTEM

Our equipment is the frontline defense against fires in diverse products such as consumer electronics, computers, textiles, furniture and auto parts. Case after case, studies show that fire suppression systems save lives.

CO2 SUPPRESSION SYSTEM

Installation of high pressure piping network threaded & welded, fixing of equipment, commissioning, testing & training, after sales services with wide variety of hazards to fit your industrial & commercial fire protection needs.

Ideal Applications:

- Flammable Liquid Storage Areas
- Quench tanks
- Printing processes
- Mixing operations
- Spray Booths
- Turbine Driven Generators
- Electrical Areas
- Dust Collectors
- Engine rooms

ART TEC INTERIORS

KITCHEN HOOD FIRE SUPPRESSION SYSTEM

As Kitchen is one of the vulnerable space for a disastrous fire hazards, our team engineers the most appropriate fire suppression system for commercial kitchen and the similar.

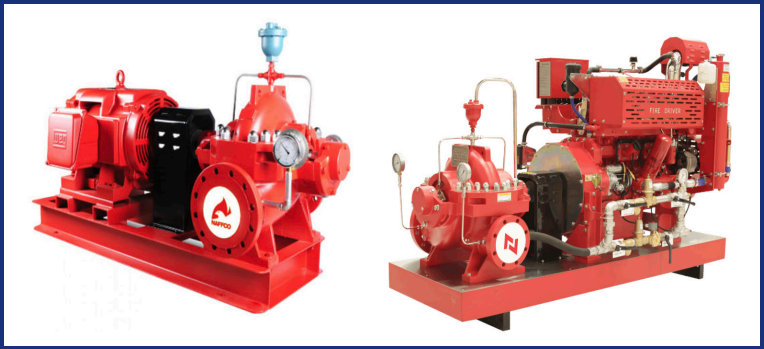

The kitchen Hood Fire Suppression System employs wet chemicals according to industry fire standards. By deploying comparatively fewer nozzles for the same area of coverage, the system is very efficient and cost-effective. Depending on the location of the hazard, nozzle location can be adjusted to be closer to the appliance surface. It can even be placed outside the appliance perimeter.

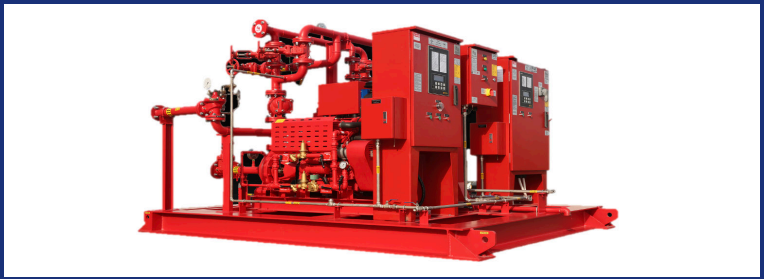

ART TEC INTERIORS

FIRE FIGHTING PUMPS

Our standard fire pump set packages are well assembled, supplied and used for fighting applications in various areas including Government buildings, Warehouses, High rise buildings, Factories, Residential buildings, etc.

We supply as per calculated water requirement, fixing and installation, commissioning testing and training, providing of operators.

ART TEC INTERIORS

FOAM SYSTEMS

Installation of all type of low, medium and high expansion foam systems with UPVC, PE, ERW piping network, all kinds of welding and fabrications, testing and commissioning.

Foam equipment comprises of a comprehensive range of foam proportioning and discharge devices used for the protection of the following sites:

- Fuel/Chemical Storage tanks and bunds.
- Refineries & petrochemical installations.
- Airports & Helicopter Landing Areas.
- Chemical Process Plants.
- Landing Racks.
- Offshore Oil Rigs.
- Jetty Protection.
- Spill Fire Protection.

LANDING / HYDRANTS / POST INDICATORS

Installation of wet & dry fire hydrant systems with UPVC, PE, CS, ERW piping network. All kinds of welding & fabrications, testing and commissioning.

A range of 65mm nominal diameter fire hydrant valves are available for both an and off shore use.

The valves are available in three configurations with both flanged and screwed inlets such as:

- Horizontal
- Right Angled
- Oblique
